COMPANY OVERVIEW

About Currey Group

Currey Group is a comprehensive provider of commercial plumbing, civil and fire services. This integrated approach allows us to be a single-source supplier for highly specialised and technical works. We reduce risk and complexity, ensuring streamlined delivery, transparent communication and end-to-end oversight at all stages of your projects.

Our team has decades of combined industry experience and a proven track record of delivering reliable solutions across NSW. We tailor our service to the situation, offering expertise that covers everything from routine maintenance to large-scale installations. This includes project management, earthworks, drainage and infrastructure services, plus the design, installation and maintenance of comprehensive fire protection systems.

At Currey Group, we are committed to consistently delivering to the highest industry standards. We handle every job with precision and care, establishing ourselves as a trusted partner for high-end residential, commercial and industrial projects.

Specialised Services

Poly Welding & Prefabrication

Our poly welding and pre-fabrication services provide comprehensive solutions for your pipeline infrastructure needs. We specialise in both PE and HDPE pipeline welding, using industry-standard techniques to ensure strong, leak-proof joints. Whether onsite welding or offsite fabrication in our controlled workshop environment, Currey Group will deliver confidence in the integrity and longevity of your pipeline systems.

OUR SERVICES INCLUDE:

- PE pipeline welding (butt fusion and electrofusion)
- HDPE pipeline welding (butt fusion and electrofusion)
- Offsite and onsite prefabrication
- QA documentation and testing

Wet Fire Services

Safety is paramount in all our operations. Our Wet Fire services division reflects this commitment, offering specialised design, installation and ongoing maintenance of wet fire protection systems. We ensure total compliance with all current regulations while providing robust protection for occupants and assets. Our fire protection expertise covers sprinkler systems, fire detection, emergency lighting and integrated safety solutions tailored to our clients' specific requirements.

OUR SERVICES INCLUDE:

- Fire hydrant and hose reel systems
- Commissioning and compliance certification
- Fire pump installation and upgrades

Our Fleet

Our advanced fleet is prepared for any challenge, from routine works to emergency breakdown support. We provide rapidly deployable capabilities for the investigation, diagnosis, and repair of plumbing and fire systems, with specialised equipment for CCTV investigations, high pressure water jetting and non-destructive digging. Additionally, our vacuum loading trucks provide safe and efficient removal of liquid and solid waste, keeping your projects moving forward without delay.

Safety, Quality, Environment

At Currey Group, we follow strict, internal frameworks for HSEQ compliance. We are an Ebix Trades Monitor accredited contractor and employ only qualified, licensed tradespeople. We also centrally manage our compliance at all levels, utilising CM3 software to maintain industry best practice. Our teams are regularly trained on new regulations and standards, in line with Currey Group's commitment to continuous improvement in all areas of our service.
